5:00 The Secret Life of the Orchestra

The Secret Life of the Orchestra Strings

The Orchestra is a mysterious beast. Developed over hundreds of years from instruments with diverse origins; assembling massive numbers of musicians playing instruments that require many years of practice to master; capable of changes in sound and colour that range from a whisper to a jet engine...

When it all comes together, the results can be startling, but how does it all work? And where did it all come from?

Karl Steven concludes his four-part investigation of the parts of the orchestra with the enormous string family, unlocking the mystery of the heart of the orchestra and learning how violinists came to be associated with the devil (RNZ)

9:00 History through the Violin

As we listen to pieces of violin music,

composed between the early 1700s and the early 1900s, we recognize changing forms and styles. But we seldom relate these changes to the wider changes happening in European culture. In this five-part series John Drummond treats pieces of violin music as windows into the time of their composition, relating them to contemporary values, ideas and tastes
