Five years ago, protests in Syria as part of the Arab Spring, were put down with violence by the Syrian Government. The mass protests quickly became an armed rebellion, with increasing sectarian involvement. As the conflict escalated, other countries became involved with Russia commencing air strikes in September 2015, and areas of the country becoming strongholds of so-called Islamic State militants. The Syrian conflict has changed people's lives irrevocably and, in this programme, several individuals reflect on the situation in which they find themselves. (BBCWS)

Safaa Faisal travels to Egypt to explore how the Sunnah is being fought over by those who think the messages that lie within its pages are being interpreted wrongly. She also explores whether the Sunnah, because of the way it was compiled, can legitimately be called the word of the Prophet and therefore whether it could actually be revised for the modern world.
